

Glaze ALL IN ONE

Machine dishwasher tablets

Individually wrapped tablets which remove difficult foodstuffs. Leaves crockery, cutlery and glassware sparkling, clean and bright

No need to handle the tablet the water soluble wrapper dissolves during the wash cycle.

Contains an active stain remover and enzymes to cut through greasy food protein.

- The rinse aid additive ensures a brilliant shine on crockery and glassware.
- Built in salt action leaves dishes spotless and also helps to keep the machine clean.
- Leaves stainless steel items with an extra shine and sparkle.
- With the added glass protector, glasses are protected against the effect of corrosion keeping them looking newer for longer.
- Helps to overcome the build-up of limescale in dishwashing machines.
- Efficient cleaning even on a short cycle wash.
- Provides a clean, fresh lemon fragrance to washed items and the machine.

LOADING AND EMPTYING THE DISHWASH MACHINE:

Remove scraps of food from crockery and rinse heavily soiled items before loading into the dishwasher machine.

ALWAYS stack larger plates and pans at the back of dishwasher to make it easier to fill the front with smaller items.

ALWAYS ensure glasses and cups are stacked upside down so they are cleaned properly and do not collect water.

ALWAYS stack cutlery and utensils in the basket with the knife blade pointing downwards.

ALWAYS empty the lower basket first to overcome the possibility of wetting the clean items with water from the rotate arm.

ALWAYS rinse the filter on a regular basis to ensure it is clean.

Place tablet in dispenser (no need to unwrap).

Close dispenser, select an appropriate programme and switch on your dishwasher as normal.

box

Order Code: C002AEV

Pack: 4 x 120 tablets

PRODUCT INFORMATION:

Appearance:	Individually wrapped tablet
Odour:	Lemon perfumed
pH - undiluted:	N/A
Shelf life:	2 years
