

# Sealant B™

## Emulsion polish primer

Acrylic water based floor polish primer which contains special polymers to penetrate into the floor surface.

Acts as an undercoat for the optimum polish performance.

Especially effective on old, worn and porous floors prior to polishing the floor.

- Provides a solid foundation on old and worn floors.
- Improves the durability of the floor polish.
- Also suitable for use on new floors.
- For use on vinyl, rubber, linoleum, terrazzo and marble.
- Coverage per 5 litre - 400/500 sq. metres for 1 coat.

### APPLICATION:

Ensure floor is dry, clean and neutral.

Use undiluted.

Pour SEALANT B™ into a clean bucket or tray, alternatively pour directly onto the floor in a thin line.

Place mop or applicator into primer and spread thinly and evenly over the floor.

Leave to dry for approximately 30 minutes.

If the floor is very old or porous, a second coat maybe required.

When the floor is completely dry, apply an emulsion floor polish.

5 L

**Order Code: A061EEV2**

Pack: 2 x 5 litre

### PRODUCT INFORMATION:

Appearance:	Opaque white liquid
Odour:	Characteristic
pH - undiluted:	7.6
Shelf life:	3 years

### QUALITY AND ENVIRONMENTAL ASSURANCE:

This product is manufactured in the U.K. by EVANS VANODINE INTERNATIONAL PLC under an ISO 9001 Quality Management System Cert. No. FM 09535 and an ISO 14001 Environmental Management System Cert. No. EMS 506072 registered by the British Standards Institution.
