

Filter Cleaner

Caustic-based milk filter cleaner

A unique formulation designed as a strong cleaner for use on re-usable in-line milk filters.

For the prevention and removal of protein or milkstone deposits.

Added water softeners for hard water areas.

- Efficient caustic based cleaner.
- Simple 1:1 usage.

FILTER CLEANING:

Whilst stirring continuously, slowly mix equal volumes of Filter Cleaner and cold water.

Immediately after milking has finished, remove the elements from the filter body and thoroughly rinse off excessive soiling with cold water.

Immerse rinsed elements in the prepared solution and leave until just before the next milking.

When required, remove the filter elements from the solution and, before using, rinse thoroughly under cold running water.

The solution should be renewed every month.

10 L

Order Code: R058IEV

Pack: 10 litre

PRODUCT INFORMATION:

Appearance:	Colourless to pale pink clear liquid
Odour:	Characteristic
pH - undiluted:	13.6
Shelf life:	3 years

QUALITY AND ENVIRONMENTAL ASSURANCE:
This product is manufactured in the U.K. by EVANS VANODINE INTERNATIONAL PLC under an ISO 9001 Quality Management System Cert. No. FM 09535 and an ISO 14001 Environmental Management System Cert. No. EMS 506072 registered by the British Standards Institution.
