

Evans Laundry Guide

Do's

- ✓ Do check levels in product containers.
- ✓ Do select correct wash processes.
- ✓ Do load machines with the correct weight/number of items.
- ✓ Do pre-sort linen into marked bins/containers.
- ✓ Do select 'cool down' option when drying polycotton items.
- ✓ Do inspect linen for wear/tear/stains.
- ✓ Do keep clean linen away from soiled linen.
- ✓ Do wash at correct temperature.
- ✓ Do clean lint traps daily.

Don'ts

- ✗ Do not overload or underload the machines.
- ✗ Do not alter the wash process cycles as this may lead to poor results.
- ✗ Do not stop a cycle halfway through as this could damage the fabric.
- ✗ Do not overdry as this will cause excessive creases to linen.
- ✗ Do not leave fabric in dryer after cycle has finished.
- ✗ Do not leave washed linen wet overnight.
- ✗ Do not store any linen on the floor - always use containers/trolleys.
- ✗ Do not forward cycle.

Laundry usage guide

**The procedures below
are reminders to help you
achieve the best results in
your laundry operation.**

Correct weight

It is important to make sure that the dry weight of your laundry does not exceed the capacity of the machine. Wash weights can be found on the rating plate of your laundry appliance.

Separate

It is good practice to separate natural and synthetic fibres. This will help reduce the possibility of static.

Dryung

DO NOT OVER DRY
This can lead to static.

Training

Ensure all new staff are fully trained on laundry procedures to ensure on-going success.
