

Vanoquat®

Formulated quaternary detergent disinfectant

Blended detergent disinfectant for the food process and animal husbandry industries. Ideal for single or two-stage clean and disinfection programmes.

Passes EN 14476; effective against enveloped viruses, including Coronavirus.

Bactericidal; passes EN 1276. Effective against Listeria and Campylobacter.

- Effective against a wide range of bacteria, yeast and pathogenic micro-organisms.
- Passes EN 1276, EN 1650, EN1656, EN1657, EN 14476 and EN 16615.
- Blended detergent/ disinfectant for hygiene sensitive areas.
- May be applied at ambient or elevated temperatures by brushing, soaking, spraying or fogging.
- Effective in all water conditions.

FOOD PROCESS INDUSTRY

For use in the food process industry, Vanoquat® should be applied at a dilution rate of 1.0% v/v (10 ml per litre).

SINGLE STAGE CLEAN AND DISINFECT:

Gross soiling should be removed before applying the product. Apply Vanoquat solution by clean cloth, brush or by immersion until all surfaces are covered. Allow a contact time of 15 minutes then rinse thoroughly with clean potable water.

TWO STAGE CLEAN AND DISINFECT:

Firstly, clean surfaces and equipment thoroughly using a suitable detergent and rinse with clean water. Apply the diluted Vanoquat solution by clean cloth, brush, immersion or high or low-pressure spray until all surfaces are covered. Allow a contact time of 15 minutes then rinse thoroughly with potable water.

For food contact surfaces leave for 15 minutes then rinse with clean, potable water.

For non-food contact surfaces leave for 15 minutes and allow to air dry.

ANIMAL HUSBANDRY INDUSTRY (for use in Great Britain only)

For use in the animal husbandry industry, Vanoquat® should be applied at a dilution rate of 2.0% v/v (20 ml per litre).

FOR SINGLE AND TWO STAGE PROCESSES:

Use methods listed above.

FOGGING:

In high care areas, atmospheric fogging may be used as an additional hygiene step.

Vanoquat should be applied through suitable fogging equipment. For effective disinfection, 2-3 litres of diluted solution should be atomised per 100m³ of air.

5 L

Order Code: A038EEV2

Pack: 2 x 5 litre

25 L

Order Code: A038KEV

Pack: 25 litre

200 L

Order Code: A038NRE

Pack: 200 litre

1000 L

Order Code: A038SRE

Pack: 1000 litre

PRODUCT INFORMATION:

| | |
|-----------------|-------------------------|
| Appearance: | Clear colourless liquid |
| Odour: | Unperfumed |
| pH - undiluted: | 13.3 |
| Shelf life: | 3 years |
