

Combi Oven Cleaner

Concentrated detergent

High active low foaming detergent, developed especially for effective cleaning of the interior of combination ovens.

Easily removes baked on grease & food deposits.

Low foaming formulation.

- Designed for automatic dosing during a selected cleaning programme of the ovens cleaning system.
- Effective in all water conditions.
- Also suitable for manual cleaning.
- For best results use in conjunction with Evans Rinse Aid-Multi.

AUTOMATIC CLEANING:

Dispense into the oven through the integral cleaning system, in accordance with the machine manufacturer's instructions. The detergent concentration can be adjusted through the oven control panel according to the level of soiling within the oven. The typical dilution rate is between 0.5%-2.0%.

MANUAL CLEANING:

1. Select 'Manual Wash' & press the 'Start/Stop' key. Oven will heat or cool to the required temperature.
2. Affix an extending trigger spray to the 5 L container.
3. When the display indicates 'Spray with cleaner', open the door & spray the internal cooking cabinet, including shelves & grids. Close the door & allow 10 minutes contact time.
4. Restart the programme & allow oven to complete the manual wash cycle.
5. Rinse the oven thoroughly.
6. Allow to air dry.

RELATED ITEMS:
