

PlanetMark

THANK YOU

Evans Vanodine International

For taking action with Cool Earth to help the Asháninka people protect an acre of rainforest.

Protecting rainforest is the most important action we can take to support communities, prevent carbon emissions, preserve wildlife and keep Earth's climate in balance. Through the partnership, Planet Mark members are supporting local people who:

- **Protect 151,149 acres of rainforest**
- **Keep 22,337,002 trees standing**
- **Store 9,192,043 tonnes of carbon**
