

FLOOR CARE

For use on vinyl, rubber, linoleum, marble, terrazzo and sealed floor surfaces

Stripping

Easy Strip™

Fast acting floor polish stripper

When stripping polish from a floor, it is advisable to comply with good safe working practice and avoid standing on the wet solution.

Polishing

Enhance™

Ultra high solids floor polish

Mexapol®

High solids floor polish

Maintaining

Clean & Shine™

Neutral floor maintainer

High Class™

Neutral hard surface cleaner

PREPARE - POLISH STRIPPING

- Place wet floor caution signs, sweep floor
- Add **EASY STRIP** to hot water in a mop bucket
- Working in sections, mop solution onto a section at a time and leave for five minutes
- Scrub surface using a floor machine with a **BLACK** floor pad
- Remove all slurry residue with wet pick-up or by using a mop
- After using **EASY STRIP** - providing all slurry residue is completely removed it is not necessary to rinse, but check floor is neutral before applying polish

EASY STRIP is also suitable for mop or spray stripping - refer to label

PROTECT - POLISH APPLICATION

- Place wet floor caution signs. Ensure floor is clean, dry and neutral prior to polishing
- Pour polish into bucket or tray
- Place mop or applicator into polish and lightly squeeze out any surplus
- Alternatively, pour polish directly onto floor in a thin line
- Spread polish thinly and evenly in **WEST** to **EAST** direction
- Leave to dry, approximately 30 minutes
- Leave a 10 cm then apply a further coat of polish thinly and evenly in a **NORTH** to **SOUTH** direction
- Leave to dry, approximately 30 minutes

If required further coats of polish can be applied

MAINTAIN - SPRAY CLEAN / MOP AND DRY BURNISH

Spray Cleaning and Burnishing

- Place wet floor caution signs, sweep floor
- Add **CLEAN & SHINE** or **HIGH CLASS** to cold water in a hand spray
- Spray floor lightly, approximately 1 metre in front of the machine
- Burnish to a shine using a high-speed machine with a **RED** floor pad

Mop and dry Burnishing

- Place wet floor caution signs, sweep floor
- Add **CLEAN & SHINE** or **HIGH CLASS** to warm water in a mop bucket
- Mop floor with solution and allow to dry
- Dry burnish using a high-speed floor machine with a **WHITE** floor pad
