

Scope of the QMS & EMS

Company-wide Quality & Environment Management Systems are in operation designed to comply with the requirements of BS EN ISO 9001:2015 & BS EN ISO 14001:2015 & to meet all applicable statutory & regulatory requirements for the operation of the site & the products supplied.

Scope of Certification:

The Quality Management System (QMS) & Environment Management System (EMS) are applied to all activities undertaken at the company's site at Walton Summit.

To formulate, manufacture and distribute cleaning solutions for the professional hygiene and livestock protection industries.

No other sites are included within the scope of the QMS or EMS.

The QMS & the EMS provides a system which integrates procedures & processes for analysing customer requirements; defining the processes that contribute to the achievement of a product or service that is acceptable to the customer; provisions for keeping these processes in control; training of personnel; monitoring, summarizing & reporting of the performance of the company to internal & external stakeholders.

Quality objectives & Environmental objectives, along with the Legal Register, Aspects Register & Risk Assessments are used to provide a basis for analysis & continual improvement & are subject to review.
