

Filter Cleaner

Filter cleaner

A unique formulation designed as a strong cleaner for use on re-usable in-line milk filters.

For the prevention & removal of protein or milkstone deposits.

Added water softeners for hard water areas.

- Efficient caustic based cleaner.
- Simple 1:1 usage.

FILTER CLEANING:

Whilst stirring continuously, slowly mix equal volumes of Filter Cleaner & cold water.

Immediately after milking has finished, remove the elements from the filter body & thoroughly rinse off excessive soiling with cold water.

Immerse rinsed elements in the prepared solution & leave until just before the next milking.

When required, remove the filter elements from the solution and, before using, rinse thoroughly in cold running water.

The solution should be renewed every month.

10l

Order Code: R058IEV

Pack: 10 litre (12.91 kg)

Pallet: 78 Each

PRODUCT INFORMATION:

Appearance: Colourless to pale pink clear liquid

Odour: Characteristic

pH - undiluted: 13.6

Shelf life: 3 years

COMPOSITION: Contains a blend of sodium hydroxide & sequestering agents.
