

EVANS VANODINE GREENTICK PRODUCTS

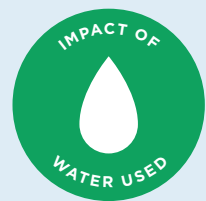

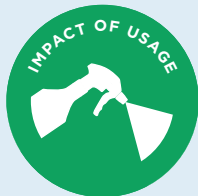

WRIGHT ENVIRONMENTAL IMPACT RATING

HOW DOES INDUSTRY JUDGE WHETHER A CHEMICAL HAS A HIGH OR LOW IMPACT ON THE ENVIRONMENT?

Every chemical has some impact on the environment. There are many 'green' schemes used in the cleaning industry but none take into account all of the relevant factors. At Evans Vanodine, we have an innovative system for classifying products according to their overall environmental impact. Devised by one of our experienced research chemists, the WEIR system uses a set of seven criteria to analyse its products.

Every Evans Vanodine product is analysed using the WEIR system and awarded a score for each of the seven criteria. The lower the overall product score, the lower the impact on the environment. Products which achieve a low impact rating are identified with a green tick WEIR logo on the label.

OPTIMUM PERFORMANCE—MINIMUM IMPACT

One advantage of WEIR is that it enables us to highlight the lowest impact product within each category. This helps you choose the most appropriate product for your task, whilst still attaining the best results. Using a low impact product to carry out a cleaning task in the wrong circumstance does not serve the best interest of the environment, therefore it is important to:

- **Select the right product for the job**
- **Use the recommended dilution rate**
- **Dispose of it responsibly**

Please see our dedicated environment website for more detailed information:

TOILET CLEANERS

EVERFRESH™ POT POURRI
Toilet/washroom neutral cleaner

- For soft to medium water areas.
- Highly perfumed; long-lasting.

EPIC POWER
Toilet/washroom cleaner descaler

- For medium to hard water areas.
- Clean, refreshing fragrance.

HI-PHOS™
Heavy-duty toilet cleaner descaler

- For hard water areas.
- Clean, medicated fragrance.

THE RIGHT TOILET CLEANER
Hard water areas experience higher levels of limescale build-up, so will require regular cleaning with a heavy duty, acid-based, descaler.

Softer water areas may only require a neutral daily cleaner, or less frequent cleaning with an acidic descaler.

HOUSEKEEPING

CLEAN FAST®
Heavy duty washroom cleaner

- Kills bacteria and cleans in one.
- Foaming. Tangerine perfume

SPRAY & WIPE
Multi-task/glass cleaner

- Sparkling, streak-free finish.
- Fresh, peppermint fragrance.

FRESH™
Air freshener/surface deodoriser

- Disperses odours; spray or damp mop.
- Wild berry fragrance.

LUXURY SILK™
Pearlised hand, hair, body wash

- With added moisturiser.
- Classic, delicate perfume.

KITCHEN

EST-EEM™
Unperfumed cleaner sanitiser

- Kills bacteria and cleans in one.
- Passes EN 1276 in 30 seconds.

LIFT™
Unperfumed heavy duty degreaser

- Floors, walls, cooker hoods, ovens.
- Concentrate; economical in use.

BLUSYL®
Washing up liquid - perfumed

- Light to medium workload.
- Fresh citrus fragrance.

Q'DET™
Washing up liquid - unperfumed

- Heavy workload.
- Concentrated; dilute 1:1200

HARD SURFACES

HIGH CLASS™
Neutral hard surface cleaner

- Light and general cleaning.
- Deodorising, tangerine fragrance.

APEEL
All purpose cleaner and degreaser

- Medium to heavy soiling.
- Clean, natural orange aroma.

MYSTROL™
Multi-purpose cleaner

- Heavy soiling - perfumed.
- Fresh, lemon fragrance.

E.M.C.™ PLUS
All-purpose cleaner degreaser

- Heavy soiling - unperfumed.
- Ideal for safety/difficult to clean floors.

FLOORCARE

CLEAN & SHINE™
Neutral floor maintainer

- Cleans and restores polish
- Approved for POLYFLOR.

PINE GEL
Neutral cleaning gel

- For general soiling
- Long lasting fragrance.

EXTRACT PRO
Carpet and upholstery shampoo

- Anti-soiling properties.
- Fresh, floral fragrance.

SPRAY CLEAN AND BURNISH
Ideal for light to medium soiled floors. Use a fine spray and high-speed floor machine to increase the longevity of your polish.

MOP AND DRY BURNISH
For dirty/high traffic areas, mop floor to remove excess soil, prior to burnishing with high speed floor machine. This ensures dirt does not reduce the performance of your polish.
