

E-DOSE ICE CREAM EQUIPMENT

3 STEP CLEANING SYSTEM

SCOOP

Step 1

For initial clean, make up a solution of 1 part EC4 to 60 parts water in a container. Dip and shake scoop to remove the majority of ice cream.

Step 2

Make up a separate solution of 1 part Est-eem to 25 parts water in a container. Dip and shake scoop to sanitise.

Step 3

Rinse with clean water prior to use.

CHANGE SOLUTION REGULARLY

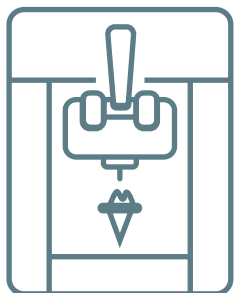

Step 1

2 x 10ml caps into 1.25 L water

Step 2

2 x 10ml caps into 1.25 L water

MACHINE

Step 1

For initial clean, make up a solution of 1 part EC4 to 60 parts warm water and operate the machine to draw solution through the dispensing system.

Step 2

Make up a solution of 1 part EC4 to 100 parts warm water and operate the machine to draw solution into the dispensing system and leave overnight.

Step 3

Pump clean water through the dispensing system prior to use.

Step 1

4 x 10ml caps into 2.5 L water

Step 2

5 x 10ml caps into 5 L water
