

Evans Guide to Milking Hygiene

1

Prior to milking, wear disposable milking gloves and keep them clean.

2

Pre-dip or spray with EVANS PRE-DIP solution.
Passes EN 1656
15 seconds contact time.

3

Wipe off EVANS PRE-DIP with a clean cloth, leaving teats clean and ready for milking.

4

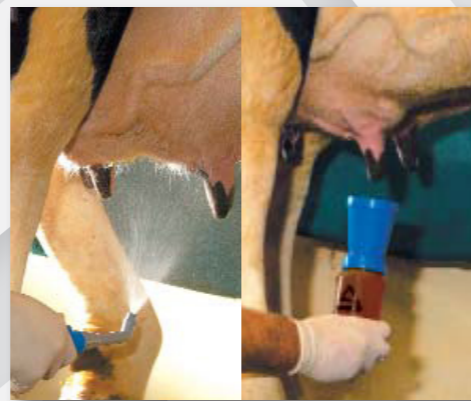

Once milking is complete, remove the cluster.

5

In between milking each cow, dip the cluster in EVANS PERADOX.
Passes EN 1656
15 seconds contact time.

6

Dip or spray teats with a product from EVANS TEAT DIP RANGE.

7

Ensure all teats are completely covered.

8

Encourage the cows to stand for a minimum of 20 minutes after milking, to ensure teat ends are closed.
