

Sealant B™

Emulsion polish primer

Acrylic water based floor polish primer which contains special polymers to penetrate into the floor surface.

Acts as an undercoat for the optimum polish performance.

Especially effective on old, worn & porous floors prior to polishing the floor.

- Provides a solid foundation on old & worn floors.
- Improves the durability of the floor polish.
- Also suitable for use on new floors.
- For use on vinyl, rubber, linoleum, terrazzo & marble.
- Coverage per 5 litre - 400/500 sq. metres for 1 coat.

APPLICATION:

Ensure floor is dry, clean & neutral.

Use undiluted.

Pour SEALANT B™ into a clean bucket or tray, alternatively pour directly onto the floor in a thin line.

Place mop or applicator into primer, & spread thinly & evenly over the floor.

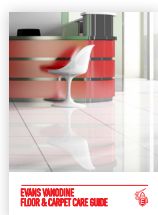

Leave to dry for approximately 30 minutes.

If the floor is very old or porous, a second coat maybe required.

When the floor is completely dry, apply an emulsion floor polish.
