

Vanodine / FAM

Iodophor disinfectant

Extremely powerful & fast acting iodophor based detergent sanitiser & disinfectant. Effective against a range of bacteria, fungi & viruses.

MINISTRY APPROVED.
Cleans & disinfects in one operation.

Active in the presence of organic matter.

- Broad spectrum quickly kills bacteria, viruses & fungi.
- Biodegradable & stable.
- Colour coded to indicate activity.

GENERAL CLEANING AND DISINFECTION:

When using in livestock housing: Remove all portable equipment, litter and manure and clean to remove heavy soiling. Apply disinfectant after adjusting the dilution to suit soil level and/or disease specific history of the house. Allow the area to dry if possible before replacing equipment and restocking. Also use a solution of VANODINE to treat buckets, cages, hatchery trays, drinkers, crates and other non-porous surfaces.

WHEEL AND FOOTBATHS:

To help prevent the spread of disease use at a dilution of 1:75 and renew daily.

AERIAL DISINFECTION:

Apply at a suitable dilution rate through a mist generator.

DRINKING WATER SYSTEMS:

Used as a sanitising aid, dilute 1:600 with water.

DISEASE CONTROL ORDERS:

Ministry Approved against Foot & Mouth disease orders at 1:525, Swine Vesicular disease orders at 1:400, disease of Poultry orders at 1:150. Effective if used against Aujeszky's Disease or Rabies at a dilution rate of 1:150. For use against Blue Ear pig disease or Salmonella, dilute 1:100 with water.

OTHER USES:

VANODINE is a powerful and versatile detergent disinfectant, which may be used for a variety of applications in animal husbandry. Further information on specific uses and dilution rates is available on request.
