

Vanosure

Quat-free surface disinfectant.

Unperfumed, blended, quat-free surface disinfectant, for use in the professional food and catering industries. Effective against a range of bacteria and yeast.

Passes EN 1276, EN 13697 and EN 1650 against bacteria and yeast.

Recommended wherever there is a risk of cross contamination.

- Kills a wide range of disease causing bacteria and yeast.
- Unperfumed; ideal for use in the food and catering industry.
- Recommended for a variety of hard washable surfaces and equipment and wherever there is a risk of cross contamination.
- Can be applied by brushing, soaking or spraying.
- Suitable for use in all water types.
- Colour-coded, screen printed, trigger spray bottle available.

DISINFECTING HARD SURFACES AND EQUIPMENT:

PASSES	DILUTION	CONTACT TIME	SOILING LEVEL
EN 1276 - bactericidal	1:100	5 minutes	Dirty
EN 1650 - yeasticidal			
EN 13697 - bactericidal/yeasticidal			

Dilute concentrate with clean water at a rate of 1.0% v/v (10 ml per litre).

Remove gross soiling before disinfection.

SINGLE STAGE CLEANING AND DISINFECTION:

Apply to surface by clean cloth, brush or by immersion until all surfaces are covered. Leave on surface for a contact time of 5 minutes then rinse thoroughly with potable water. **Food contact surfaces must be rinsed thoroughly with clean water before allowing to dry.**

TWO STAGE CLEANING AND DISINFECTION:

Firstly clean surfaces and equipment thoroughly using suitable detergent and rinse with clean water. Apply solution by clean cloth, brush or by immersion until all surfaces are covered. Leave for a contact time of 5 minutes then rinse thoroughly with potable water. **For non-food contact surfaces leave for 5 minutes and allow to air dry.**

USE DISINFECTANTS SAFELY | ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.

Vanosure is currently only available to purchase in the UK.
