

DD1 DRAIN DOSER UNIT

Troubleshooting guide

SYMPTOM	PROBABLE CAUSE	REMEDY
No chemical being delivered	Battery of the unit may be flat. (with preventative maintenance this should not happen).	To test: press the button at the bottom of the unit, if the pump does not run the battery will need replacing. (Replacement power pack D067AEV)
Too little product is being delivered	Tube may need replacing.	Replace tubing.
Unit will not prime	Tube requires replacement or the suction tubing is allowing air in. On rare occasions the springs on the roller can weaken.	Replace tubing. Faulty parts will need replacing. (This is not a common occurrence)
